SUMMARY

AI & Data Science undergraduate skilled in Machine Learning, Generative AI, FastAPI, and MERN Stack development. Built AI-powered applications using LLMs, RAG, and REST APIs. Selected for Amazon ML Summer School 2026 and passionate about building scalable AI solutions.

EDUCATION

B.Tech – Artificial Intelligence & Data Science Shri Vishnu Engineering College for Women	2023–2027 — CGPA: 8.97
Intermediate (MPC) Tirumala Mahila Junior College	2021–2023 — 977/1000
Class X Tirumala Proactive EM High School	2021 — 600/600

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, SQL, C
AI/ML	Machine Learning, Deep Learning, TensorFlow, Keras, CNN, Transfer Learning, Generative AI, Agentic AI, Prompt Engineering
Web & Backend	FastAPI, REST APIs, Node.js, Express.js, React.js, MongoDB (MERN Stack)
Core CS	Data Structures & Algorithms, OOP, DBMS, Operating Systems
Tools	Git, GitHub, Postman, VS Code, Jupyter Notebook, MongoDB Atlas

EXPERIENCE

AI/ML Intern Eidiko System Integrators	May 2026 – 1 July, 2026
---	-------------------------

- Developed backend services using **FastAPI** and **Python** for AI-powered applications.
- Built and tested **REST APIs** to integrate **Generative AI** workflows into production pipelines.
- Designed **Agentic AI** automation solutions using modern AI frameworks and **prompt engineering** techniques.
- Collaborated with development teams to architect scalable backend systems and optimize application performance.

PROJECTS

SeatSync | MERN Stack

- Built a full-stack room/seat booking platform using **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **JWT** authentication.
- Implemented role-based access control and RESTful APIs for efficient seat allocation and booking management.

WeRecruit | FastAPI, Generative AI, Langfuse, Qdrant

- Developed an AI-powered Recruitment Assistant using **FastAPI**, **Generative AI**, **Agentic AI**, **Qdrant**, and **Sentence Transformers** to automate resume screening, semantic candidate matching, ranking, and shortlisting.
- Integrated **Langfuse** for LLM observability, prompt tracing, and performance monitoring, while implementing automated HR email generation, candidate evaluation, and recruitment reporting workflows.

Smart Fruit Sorting – Rotten Fruit Detection | AI/ML

- Developed an image classification system using **VGG16 Transfer Learning**, **TensorFlow**, and **Keras** to detect fresh vs. rotten produce.
- Applied image preprocessing and augmentation on a Kaggle dataset, achieving high classification accuracy.

HarvestMind | Machine Learning

- Built an **ML pipeline** using agricultural, weather, and soil datasets with feature engineering and predictive modeling to improve farming productivity insights.

ACHIEVEMENTS & CERTIFICATIONS

- Selected for **Amazon ML Summer School 2026** – Chosen among a highly competitive pool of applicants for Amazon's prestigious Machine Learning program
- Solved **500+ DSA problems** on LeetCode ([Harshitha.vanaparthi](#)) and CodeChef ([harshitha_208](#))
- Scholar of **Amazon Future Engineer Bootcamp 2025** – Completed a 10-month program covering Java, DSA, and AI Foundations
- Earned **AI Prompt Engineering** certification – Naukri (May 2026)
- Completed **Altair Data Science Virtual Internship** (AICTE, 10 weeks) and **SmartInternz ML Internship**
- Shortlisted among **top teams** at college level for **Smart India Hackathon 2024**
- Active member of **The Idea Club** at SVECW – contributed to innovation-driven technical events
